

TEAM WEBSITE UPDATE GUIDELINES

Team Managers –

In order to keep our site updated and to give your individual teams the recognition that they deserve we are going to ask that you keep us informed of your teams successes over the course of the season. This will enable us to post in a timely manner to the site. Below are a few of the guidelines to follow when submitting articles on your team. This is a role that the manager can fill or can assigned to a volunteer from your team to complete. Articles will be published when received however if they are not submitted they will not be published.

Tournaments

We would like each team to submit team photos of any tournament wins along with a short recap of the teams weekend so that it can be posted to the main center section of the website.

If a team makes it to the finals and just comes up short of winning the tournament please send a write-up and team photo as well so that it may be placed on the site.

ODP or ID2 Players

Please email the address below with any information of ODP or ID2 players that will be taking place in those programs so that we can recognize them for their efforts. Also please advise as soon as you are aware if they have made the state team or alternate in their age group so that we may congratulate them for their accomplishment.

League Play

Please provide a short recap at the end of your team's season. (Only need to do this if you won the league or came in runner up.)

Please submit all updates and articles to submissions@hoosierfc.com

Thank you and good luck in your seasons,

Jeff Wyatt
